Popular on Social Media- Donate Blood for Thalassemics

Patients of Thalassemia need frequent and regular blood transfusions to SURVIVE.

EVEN DURING COVID19.
We urge you to donate blood to save their lives.
Please call us on 011-23359379, 9319982104 or 9319982105 for any related query.

Lives Impacted- Saving Lives, Changing Minds

The COVID19 pandemic is unlike anything the world has ever experienced before. As countries across the world struggle to contain the outbreak, India implemented a timely lockdown to successfully slow the rate of transmission of the virus and keep its citizens safe. However, the lockdown ended up leaving several people such as those who were traveling or were away from home stranded in its wake.

IRCS Pune, Maharashtra came to the timely rescue of one such person in dire need of help during the lockdown period. Natasha (name changed to protect privacy) is a patient of HIV & is registered for treatment in Jabalpur. In the second week of March, she reached Pune to visit her relatives with medicines requisite for the travel duration.

All pandemonium broke loose when the lockdown was announced and Natasha was left stranded in Pune with her depleting stock of medicines. Natasha did not know whom to approach for help or how to replenish her stock of expensive medicines without a doctor’s prescription. When the Red Cross team in Pune was contacted for support, their doctor and staff immediately got in touch with doctors from Jabalpur Government Hospital, requesting them to send her prescription and all related documents over phone so that her medicines could be procured locally. Not just this, Red Crossers reached Natasha at her doorstep with medicines for one month & assured her of all possible help in the future. Natasha, her family and relatives are very grateful to Red Crossers who left no stone unturned to ensure that she receives her life saving medicines on time and does not have to miss even a single day’s dosage.

In association with the District Administration, IRCS Karnataka has distributed 1 lakh fruit juice tetra packs and 1 lakh bottles of fruit juice & nutritious drinks, received in donation, among needy people across the State.

Recently, IRCS Warangal (U) Blood Bank, Telangana collected 191 units of blood at Ghanpur Station. In Mancherial, Telangana, 101 units of blood was collected. IRCS thanks all donors & donor organizations for their support during this crisis!

IRCSers are providing masks to patients of TB enrolled under its TB Project to ensure the safety of the most vulnerable sections.

Patients of Thalassemia need your support.
